SAMSUNG

NX SERIES ZERO CLIENT DESKTOP

THE COMPACT AND HIGHLY VERSATILE VDI ENDPOINT.

KEY FEATURES

Maximize Your VDI Investment

The NX-N2-T features built-in PCoIP® technology which connects users to the corporate cloud while reducing desktop overhead. With business data centralized on the VMware stack, your user environments are easier to deploy and manage while being less vulnerable to security risks.

Simplify and Secure the Desktop

The NX-N2-T enables businesses to simplify and secure their desktop endpoints with PCoIP® intelligence baked-in to the chip design. This SoC (System on Chip) technology is used to reduce the desktop attack surface while almost eliminating the need for client-side administration.

Built for Adaptability & Affordability

Using a lightweight detachable stand (included), the NX-N2-T can be VESA mounted to a wall, the back of a monitor or hidden under a desk. This can eliminate unplanned costs for mounting kits while providing more out-of-box installation choices.

Functional Expandability

Unlike most other zero clients, Samsung's NX-N2-T provides I/O connectivity that today's business users need. With six USB 2.0 ports, users can connect a wide range of modern USB peripheral devices such as printers, scanners, web cams, smart card readers, headsets, and more.

AFFORDABLE ZERO CLIENT DESKTOP THAT WORKS WITH NEW OR EXISTING MONITORS

There are many benefits to VDI (virtual desktop infrastructure) technology. And one of the best ways to access this type of computing architecture from the desktop is with the Samsung NX Series Zero Client. Equipped with the latest Teradici chipset, it's highly optimized for use with VMware Horizon View™. The Samsung NX-N2-T is a VESA mountable desktop that can be paired with almost any modern display or peripheral combination, including single or dual digital monitors, and up to six different USB devices. KEY SPECIFICATIONS
For complete product specifications, visit samsung.com/virtualdesktop

Client	**Model Number**		**NX-N2-T (TAA Compliant)**
	Material Code		LF-NXN2N/GO
	Processor		Teradici Tera2321 (Tera2)
	Supported VDI and DaaS Hosts		VMware View, VMware Horizon View, VMware Horizon DaaS, Amazon Workspaces (AWS)
	RAM		DDR3 512MB
	Flash		256M bit (32M Byte)
	Audio		Realtek ALC886
	VMware / Citrix Certification		VMware View 5.1 Pending
	Ethernet		Gigabit Ethernet (10/100/1000 Auto Sensing)
	Fan/Fanless		Fanless
	Maximum resolution (H x V) (Dual Screen)		Single Display Port: 2560 x 1600, Single DVI: 1920x1200 (2560 x 1600 w/Splitter), Dual Display Port + DVI: 1920 x 1200
	Input / Output		10/100/1000 Ethernet (RJ45), USB 2.0 x 6 (2 Front, 4 Back), Headphone Out, Audio Out, MIC In, DisplayPort 1.2 Out, DVI-I Out
	Speaker		1W Speaker
	Mount Pattern		Stand: VESA 100 x 100 (mm)
Power	Input		14V DC Input
	Power Supply		External (Small Form Factor)
	Power-On	Maximum	19.4W
		Typical	7.3W
	Standby		1W
Cabinet Color	Front		Black
	Back		Black
OSD	OSD Language Provided		Korean / Japanese / Chinese / English / German / Spanish / French / Italian / Swedish / Russian / Portuguese / Turkish / Hungarian / Polish
Accessory (Supplied)	Included in package		User Manual, Power Cord / Adapter, Quick Setup Guide, Warranty Card
Dimension	Device with Stand (W x H x D) - Horizontal		5.9" x 1.5" x 5.1"
	Device with Stand (W x H x D) - Vertical		1.2" x 6.2" x 5.1"
	Device without Stand (W x H x D) - Horizontal		5.9" x 1.2" x 5.1"
	Device without Stand (W x H x D) - Vertical		1.2" x 5.9" x 5.1"
	Packaged: W" x H" x D"		7.5" x 12.9" x 8.8"
	Stand: W" x H" x D"		4.5" x 0.56" x 4.5"
Weight	Net		15 oz. (425 g)
	Gross		2.9 lbs. (1.3 Kg)
Certifications	Federal/DoD Trade Compliance		TAA Compliant
	Safety		UL (USA), CSA (Canada), NEMKO (Norway), IRAM (Argentina)
	EMC		FCC (USA), CE (Europe), VCCI (Japan), KCC (Korea), C-TICK (Australia), CCC (China)

CONNECTIVITY

1. USB 2.0
2. Microphone In
3. Headphone Out
4. AC Power On/Off
5. DisplayPort Out
6. DVI-I Out
7. RJ45 LAN
8. DC 14V
